## LEVERAGING COLLECTIVE INTELLIGENCE WITHIN YOUR MEETINGS

Our meeting engagement tools and services are designed to help clients interact and collaborate more effectively. Our meeting tools assist in opening minds so deeper conversations can occur and team members feel confident sharing different points of view. We promote openness and sharing, so teams can boost their creativity and perform better.

DEDICATED TO  
EVOLVING LEARNING

## PROGRAM OFFERINGS

Organizations will thrive during these challenging social and economic times when they uncover better ways to ensure team alignment, shared leadership and organizational agility. We design multi-day experiential programs which provide tools for thinking differently, practicing better dialogue, and framing provocative questions that enable teams to solve problems and innovate more effectively.

## INSPIRE YOUR THINKING

### LEARNING OCCURS ANYTIME, ANYWHERE

The environment throughout Kingbridge is designed to provoke and inspire thinking. Learning how to become more open minded to others ideas takes practice. This is why we use artwork placed throughout to encourage the sharing of different perspectives beyond the meeting room.

### INTO THE WOODS AT KINGBRIDGE

We invite you to explore the woodland trails of Kingbridge and our Labyrinth. Each area offers suggestions for reflection and can be used as an active form of meditation for leaders and their teams.
